Moderator: Federico Batista Poitier, Director of External Relations, Pineda Foundation/ World Enabled

Humanity & Inclusion, together with the Government of Belgium and the Government of Luxembourg, is pleased to invite you to a side-event on the importance of safe and inclusive mobility to achieve sustainable development.

Road safety and accessibility are major challenges in rapidly growing cities. Without safe mobility, a large number of vulnerable road users (e.g. persons with disabilities, children, older people, pedestrians) are exposed to considerable health risks and see their access to services and opportunities jeopardised.

All stakeholders need to join hands to develop inclusive policies and practices, to ensure that in mobility too, no-one is left behind.

*Sponsors: Permanent mission to the UN of Belgium, Permanent mission to the UN of Luxembourg, Humanity & Inclusion
Co-sponsors: DIAUD Network, Global Alliance of NGOs for Road Safety, Stakeholder Group of Persons with Disabilities, World Enabled*
